A month ago owner took in the dog as his owner, as previous owner went overseas.
Owner says the dog was skinnier compare to what we see now.
Owner says when he got home around 13h30 the dog could not walk and the penis was out and bleeding since 10h30

The penis is swollen
chadwane - came to the front to assist as the icu did not have anything to do , walked in to clinic three where there was a
snt Barnard cross un neutered male on the consult , dog is in a very bad body condition and when i had
