

VETERINARY REPORT

On the 15th of July 2024,

I, Dr Chizelle de Wet, was requested to perform a veterinary report on a dog presented to me on the 15th of July 2024 confiscated by our inspectorate from 46 Main Road, Mamre, Cape Town.

ANIMAL DETAILS

Species: Dog
Breed: Cross breed
Sex: Male, intact
Age: Adult
Name: Major
Description: Tan and white

EXAMINATION FINDINGS

Major is bright, alert and responsive. His clinical examination findings were normal. He has a body condition score of 4 out of 9 (mildly underweight).

This animal should be neutered in accordance with the Animal Keeping Policy of the City of Cape Town (he is over the age of 6 months). He should also be fed more of a better quality food, with regular deworming – This will result in the mild weight gain necessary.

Yours sincerely

Dr C de Wet (BVSc)
Veterinarian
Date compiled: 17 July 2024
