**DEPARTMENT OF CORRECTIONAL SERVICES
DOG UNIT CHECKLIST**

correctional services

**Department:
Correctional Services
REPUBLIC OF SOUTH AFRICA**

IT IS IMPORTANT TO TAKE NOTE OF THE FOLLOWING WHEN INSPECTING DCS DOG UNITS:

The DCS Dog Unit Checklist has been designed specifically for the inspection of the Department of Correctional Service Dog Units.

When conducting a proactive or reactive inspection at the DCS Dog Unit in your area the Inspector must report directly to the Prison Head to introduce himself and explain the reason for the inspection. If the Prison Head is not available, then the Inspector needs to ask for the Acting Prison Head. Thereafter the Inspector must report to the Unit commander or Kennel Official.

Inspectors must be authorized under the hand of the magistrate of the district, in terms of Section 8(1) of the Animals Protection Act No 71 of 1962, to conduct inspections at the DCS Dog Units.

Before inspecting the kennel facilities, we recommend that the Inspector takes the time to go through the checklist to complete all the relevant information and questions. It is important to note that some of the questions are for your knowledge/observations whilst conducting the inspection.

Upon completion of the checklist, the Inspector will understand the basic layout and operations of the specific DCS Dog Unit and what needs to be inspected. The Inspector must be accompanied by a DCS Official at all times during the inspection. It is not recommended that the Inspector handles the DCS dogs. If handling is required then the DCS Officials should be handling the dogs for safety reasons.

The Inspector must ask to inspect the last DCS Veterinary Inspection Team Report conducted at the Dog Unit. The DCS Veterinary Team Inspection is an internal inspection done by the DCS and is conducted at least once annually. This report states the concerns that were noted at the specific Mounted Unit during the inspection. The Inspector must pay close attention to the DCS Veterinary Report and can then compare their findings with that of the DCS Veterinarian.

Direct contraventions of the Animals Protection Act (APA) must be issued in writing to the DCS Dog Unit in the form of an official written warning. Non-APA contraventions can be pointed out as a separate recommendation. Warnings may only be issued for **direct** contraventions of the Animals Protection Act.

A copy of the warning issued to the DCS Dog Unit must be forwarded to the NSPCA Special Projects Unit for further perusal. The NSPCA Special Projects Unit will forward a copy of the warning to the relevant heads at the DCS for further investigation and perusal.

Please do not hesitate to contact the NSPCA on 011 907 3590 or specialprojects@nspca.co.za for more information or guidance on the inspection of DCS Dog Units.
