General comments

They also had three lambs in an adequately sized enclosures. These are the animals that was complained about. The size of the enclosure is adequately sized. The lambs also has access to food, water and shelter. I asked what the reason is for this sheep being there. Abdul informed me that these animals are not up for sale. The owner has a farm in Malmesbury but there is only one person caring for the animals. He further explained that if the owner buys infant animals closer to Grassy Park, they go to the pet shop where Abdul then cares for them until the owner can get the animals to his farm in Malmesbury.

No contraventions observed during the time of the inspection. This matter may be finalized.

Was a warning issued? No

Is a follow up necessary

No
