Follow-Up Date:	2024-04-15
Comments:	I contacted Jeremy for more clarity on this property and the animals. Jeremy told me there is currently only one black and white dog with all it needs. I told Jeremy we would do an inspection to close the case from our side, and he said anytime next week would work for him because he is not busy with sterilizations next week. He requested that the inspector call him first before they go so that he can meet up with them. Please call Jeremy to set up a date in next week for a final inspection for us to close the case if no APA Contraventions are found.
