Type: DOCKET DISCUSSION

Follow-Up Date:

Comments: The prosecutor responded and advised that the docket can still not be located. He advised that he is awaiting further feedback from the SAPS.

I decided to follow up with the SAPS myself. I went to the Grassy Park SAPS but was unable to meet with the station commander as they had already left. I spoke to a woman named Jacky. She advised that the case is still open. However, it has to be signed off by the Investigating Officer, Constable Madatt, who is on a three month detectives course from January. She is to return next month and will then attend to this matter.

Jack further advised that she will bring this matter up with the station commander tomorrow morning and will give me feedback regarding the outcome of their meeting.
