Comments:	I called the manager by the name of Sam, I asked if he had obtained the vets report on the aniaml in question. He stated that's his got the report that was done prior to the animl coming onto the premises stating that he is fit and that they aware of the growth however its not affecting the animals performance. I stated that we require a new vets report as we picked up that the animal is also eating very slow. Sam stated that he did take it up with the company he hires the dogs from and they already replaced the dog however he is still willing to retrieve a new vets report from them and asked if we can give him till Friday as he would be able to email us the necessary documents required.
