Postal Code: 7570
Date: 2024-06-06
Time: 13:25
Inspector: TAMARYN PILLAY

Type: CASE DISCUSSION NOTE
Follow-Up Date:
Comments:

Derrick called in response to the SMS he received saying the case INSP 191134 has been closed and would like to know the way forward. I advised him of the multiple requests we have been sending to him about providing an affidavit and he mentioned he only recently got back from Thailand but also says they are just too scared to do that as the owner of these animals is very intimidating and will cause them harm. He says he feels we have enough evidence as to what our inspectors have seen on the property and thinks we are too scared to pursue the case in a court of law because we lost previous cases to this owner. He says the dogs are still caged, do not have roofs and some are broken which means they will get wet during the rainy season and he is willing to provide us a picture of the dogs in the cages. Derrick mentioned that if SPCA is happy with the conditions of the animals , and wants to keep the case closed, he will consult with a vet lady about the sizes of the cages and if SPCA is correct in following the processes we are but we should just get back to him about our final decision.
