Inspector:	SHIVEN BODASING

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2024-02-21
Comments:	Lindo to attend the complaint. - Final Warning to be issued for veterinary treatment. Owner to be given 7 days which is reasonable. - It must be included that any failure to comply with the warning will result in the animals being removed. Make mention to the owner that you suspect its got a condition which may affect people. **Lindo - to hand matter over to Lee once warning issued and inspection complete.** ***It is suspected that the dogs have a hookworm infection, the rash on the front of the legs are common symptoms, and the hairloss is not localised to the face and neck, indicating that it may not be mange but rather hookworm dermatitis. This is why the animals have dull coats and are not picking up weight***
