Comments: START COMPILING & FINALISING DOCKET CONTENT

I will only be able to start focusing on compiling this docket on Monday, 04 March 2024 (hopefully before).

Prior to this docket, I have to prioritise compiling 9 other dockets.

Any other task given to me will be put aside until such time I have completed all the dockets which need to be compiled and all the urgent case follow ups.

Cases become much weaker the later they are opened after the transgression (the more time that passes after the offence has been committed). Although there is no general time limit on a docket being opened (it is advisable to open a case within 6 months of the crime), it negatively impacts the investigation and collection of evidence by the IO which increases the chances of the court withdrawing the case due to insufficient evidence.

This is why I must first finalise old dockets and INSP cases. Thereafter and once I have caught up, cases will be compiled as they come in.
