Good afternoon

One of your inspectors was here to do an inspection and served a notice to comply.

1.I will not be told to refrain from putting my dog in his section when I go to work and you do not have a right to tell me how to allocate my yard and for what purpose if so you should investigate every law enforcement agencies as they keep their dogs in a much smaller spaces for much longer hours once you investigate them or show me the law that says that space (4.5mx6.5m)is to small to keep a dog for a limited amount of hours as he goes in when I go to work and comes out when I'm back from work till then you do not dictate how I use my yard unfortunately you do not have that right you also do not have the right to inspect my dog without me present if that happens again I will take legal action you have rules you need to comply with you are not above any law

2. I was told to provide him with adequate deworming tables if I'm using inadequate tablets it's because it's the deworming tables you guys supplied me

3. Yes he is under weight that was not the issue till he came back from you guys after he was fixed before that he was perfectly healthy othwise it would have been on record that he was underweight before but he was not

4. Dog gets fresh water 3 times a day in the morning when I put him in and go to work in the afternoon when I let him out and at night before we go sleep

5.he gets enough food 1.7kg bag every 3 to 4 days so he does get food

6. As for the feces I will make sure it get picked up daily and not every second day.

Regards

Armand
