Comments:	I arrived at the property and met with Sandra who was at home and explained that Rain had Sarcoptic mange and she needs to clean her house properly if she wants her animals back and look out if she gets scabies and need to go to the doctor. She kept Kenny D for me and I admitted him as confiscated. There are no animals on the property at the moment. Admission #: A28871 To see whether she claims her animals by next Thursday . I did remind her of this.
