Follow-Up Date:	2024-02-06
Comments:	Called Raxanna and discussed the situation, she stated that the animals has been moved to a different section however that section was used for them to roam freely . Raxanna stated that she wanted some advise as she wants to move them back to old section as the machinery where they were was not functional, I advised before she makes any changes I'll need to come and do an Inspection. We agreed that I phone her in next week to set up an appointment .
