Type: CASE DISCUSSION NOTE
Follow-Up Date: 2024-01-26
Comments: Natalie, her daughter Annele and colleague came to meet with Rudolph and I to claim their animals .

They claimed all 9 dogs. After a long discussion with them I mentioned that the Animal Keeping Bylaws allows them to only have 4 dogs on the property and they need to choose which ones they want to keep. They chose Varkie, Dom, Hunter and Skapie.

They also told me that they have 9 bakkies to come and remove stiff from their property tomorrow . I then explained to them all the things they need to clean and throw out and that afterwards they need to clean it with a broom and cleaning products. They agreed they will have it all done by 16th of January 2024.

Jaco and I then drafted a surrendering agreement on which it states that if they cannot comply with the stated rules, they will relinquish the ownership of the dogs to the SPCA.

ID and Surrender agreement is attached to the case.

Follow up on cleanliness on Friday
