Date: 2024-03-11
Time: 11:10
Inspector: WERNER TALJAARD

Type: EMAIL - SENT

Follow-Up Date: 2024-03-29

Comments: Good morning Jaco & Nicole
I just want your opinion on the above case number but I also want to give you some back round on the case. This complaint was received in December for two dogs that is in poor condition, I attended the complaint and found two dogs that are in a very poor condition, the owner did sign the dog over and both dogs were PTS. At the time the owner said that she works for the navy and that she lost custody of her daughter due to drug use. She also added that the daughter was taken away from her and has not seen her for almost 2 years. The owner said that she has been sober for almost a year now and the court granted her daughter back.
and at the time when the dogs were signed over she mentioned that her daughter is coming back to her in a weeks' time.
The condition of the dogs is of such nature that I felt that a case must be opened, However if I should open the case the courts might declare her unfit to take care of her daughter.
when I did the follow up at the property to check on the remaining dog I met her daughter that is 12 years of age and her daughter could not let go of her mother.
I am just concerned if I open the case against the mother then she will probably not see her daughter again and it might do more damage to the child.

I would appreciate your opinion on the above matter.

Kind regards,

Insp. Werner Taljaard
