Comments:	Hi Jaco, I sat down with Nicole now. The Bella Valle docket is done except for the letter to the IO and Prosecutor. Nicole said she wants to include the request to keep the complainant as a confidential informant I'm the letters already. She also has to mention that she removed the audio from the video as the accused would be able to recognize her client's voice. Nicole said once she has finalised the letters and printed that I can register the docket. She's just prioritizing meeting prep and Elani's docket and said she thinks she will be able to have everything printed on Monday.
