Subject: Re: Case No. INSP194764

Greetings

I refer to the abovementioned case and would like to thank you for your prompt response and action taken to assist in the matter.

I have been visiting the informal settlement regularly to check up on the dog, Rocky. Also to feed and deworm him and all the other animals. I have been informed that your inspectors have been around to investigate the matter in question. I was pleased to learn that the necessary steps have been taken to ensure the well being of Rocky. Since reporting the matter and my subsequent visits, I have noticed a change in the situation (for the better) of which I'm thankful. Fortunately, there has been a change in the owners attitude too as it appears that he is taking better care of his dog. There is still room for improvement yet, a change for the better no doubt so THANK YOU for assisting me once again.

There has been a remarkable improvement in Rock's condition and I do believe he will fully recover to his former self...beefy and strong!

Upon arriving this morning, I was pleased to find water available and him wearing the harness which I provided, as opposed to the heavy chains on his frail body.

Together we can make a difference and I'd like to take this opportunity to thank SPCA for coming to the rescue once again.

Yours sincerely

Rachaél
