Comments:	I received a call from Nazly, who is urgently seeking sterilization for her dog and cat due to a compliance notice from Law Enforcement. She is unable to afford the fine or risk losing her pets. I informed her that my sterilization bookings are fully scheduled until the end of September, but I can accommodate her on October 9, 2024. She accepted this date and will make a note of it. I will follow up with a reminder call the day before the scheduled booking. Nazly, a pensioner, has offered to make a small donation in appreciation of our assistance.
