Comments, if any:

Upon my arrival, i met with Karime. 3 cats and 2 dogs were free roaming at the front of the property and had access into the house for adequate shelter. These animals had access to a clean living environment and water. They appeared in a fair condition an no signs of sniffles was observed. At the back of the property was another dog free roaming with access to water, a clean living environment and adequate shelter. That dog too appeared in a fair condition. She then told that there is another cat but it's not a house cat as the cat always stay outside and will even go sleep in the kennel with the dog at the back of the property. The cat then came to the property while I was still there and I heard the cat sneezing. After I explained to her that she will have to take the cat to a veterinarian, she told me that she don't have the money and will rather surrender the cat for euthanasia, which she did.
