His dogs are consequently thin and frail. Ive lodged a complaint about his behaviour with the animals before, for the manner in which he hit his dogs. This still continues, but to a much lesser degree. However, i was advised to legally mind my own business. This morning, one of his dogs was wandering outside, and it was hungry and thirsty. The dog is almost a skeleton. Please can you investigate and look in the matter. He supposedly has 5 dogs, but i only her 2 barking. I fear for their livelihood if they don't receive proper nourishment and care soon.
