General Report Comments: Upon follow-up I met with owner family members and addressed welfare concerns received regarding the animals on the property.i was informed that that is not true amd was allowed into the property to conduct an inspection on the animals.

I observed 2 x puppies that appeared to be in fair condition with access to shelter and drinkable water available. The dig in question comes and goes to the property but owner claimed dog was burned with hot water long time ago and hair is not coming back bit will confine dog when it's home for us to see it
