Follow-Up Date:	2024-12-01
Comments:	Discussion with Chief .Please advise me I was not happy with fire as they showed no true interest in rescuing humanly I was told by a female fireman they won't risk it for a cat they wanted to use the water hose to get the cat down I asked them to think about it and use another method it was told the last time fire done that in the area the cat was hosed off and fell and was attacked by dogs ..as I don't feel happy about them just adding more stress to this animal
Captured By:	Cat was later found a collection officer to collect please STEPHEN BENJAMIN 2024-12-01 13:22
