Other Identifying marks:	

To whom it may concern;

Lilly has been a patient of ours at TAH Bellville since July 2022.

She has always been in good condition, taking into account her age and breed, and is well cared for. She has been diagnosed with cutaneous haemangiosarcomas in the past, which have been surgically removed as needed. Surgery is usually curative and does not affect quality of life.

Veterinarian Signature:
Date: 05-11-2024

Veterinarian: Dr Adele Rohlwink-Coutts
Vet Qualification: BScBVSc
Vet RegistrationNumber: D13/10481
