Comments by Inspector:

Upon inspection, i met with Margaret. She explained that the daycare is for the dogs and boarding is for the cats as they do not board dogs. I started in the cattery. The rooms were clean. Water was available. Clean little trays were available. Scratch poles was also available. All the cats appeared in good health and condition

I then went to the daycare where the dogs are kept. The day care is divided into 3 groups. The mature dogs, the dogs that are afraid of big dogs and the dogs that are very hyperactive. There is enough space for the dogs. The living environment was clean. Water and adequate shelter is provided. All the dogs appeared in good health and condition
