How do staff handle animals _____ Good Fair Poor Unacceptable

Hiding areas _____ Good (Box/Plastic Container) Fair (not enough) Unacceptable (None) Other

Environmental enrichment _____

PROTECTION:

Animals not only have to be protected from theft but also from negative human influences such as the teasing and chasing of the animals.

Animal supervision

Interaction between the public and animals must be under strict supervision to ensure the animals are not teased, chased, frightened or abused in any manner.

Enclosure supervision

Adequate supervision must be provided to ensure that animals are not exposed, either deliberately or negligently, to harmful products such as cigarettes, litter, broken glass, potentially harmful foodstuffs or uncontrolled feeding programmes.

Birds of prey

In areas where birds of prey may pose a threat, sufficient vegetation, such as trees and shrubs, under which the small stock can hide will minimise the threat and offer protection.

Fractious animals

Animals must be protected from bullying and aggression from other animals, including those of their own species. Fractious or aggressive animals must be housed separately or disposed of humanely.

Noise and people

Animals must be protected from unacceptable noise levels such as loud music, high-frequency noises and fireworks. All animals should have an appropriate area in which they can retreat to away from direct contact with the public and other animals.

FEED P

Messy food swept away daily / no spoilage on the floor(s) / unhygienic smell

Are concentrates/mixes stored in clean sealed containers? _____

Are feed drums labelled? _____

Is there a feed board? _____ Recommended to avoid errors in feeding

Is medication stored separately from feed area? _____ Especially where there are many animal feed boards record what animals should be fed when and what

Record the type of feeds used _____ Preferable to avoid contamination

Describe pest control? _____

Describe animals individual diets? _____ Horses need different feeds depending on factors such as age, health, growth stage, work regime
