FINDINGS :

Comments, if any:

Upon arrival, myself and Inspector Lwazi Ntungele of Cape of Good Hope SPCA met with the owner , who granted us access to the property.
She informed us that they are currently busy tiling the house inside and had moved all the furniture and things outside into the yard where the dog normally stays. Because of this, they had moved the dog to her boyfriends house in the interim while they are still busy. Once they are done with the tiling and have moved all the things back inside, they will bring the dog back to the property and ensure the living area is clean for him. We accepted this as we were able to see inside the house how they were tiling and how full the yard is. We agreed that we will return next week to check if the dog is back and check the living environment .
