Rudolph Philander
Good day Inspector

Thank you for your mail. We are almost done with the Gulleys at the kennels. This will hopefully be completed before the new month. Our application will then be sent once it's completed because DAFF normally comes soon after the application is sent off. We want to make sure that when they come for the inspection that everything is ready. No, we do not have dogs on any of our sites

I trust that this is in order

Kind regards
Graham Daniels

I am closing this case - the security company is currently not using animals at their sites. NFA.
