Comments:	On 13th Oct at 14: 05, the owner, Ntlantla James Mbhele (ID: 9907045029086), arrived stating he was there to claim his dog, which had been found at OGW Hospital. The owner was informed that an affidavit was required to proceed with the claim . He initially stated that, according to the inspector, this was not necessary. I assisted with the process. Peace went to the pound to retrieve the board for the animals so the owner could sign the claim form. However, during this time, the owner changed his mind and said he would rather complete the affidavit and return on the 15th to finalise the claim. He also mentioned that he had arrived by taxi and was unfamiliar with the area.
