Hi Jaco

Please can you have a look at this case? Siviwe requested that a qualified inspector go back to the property to see if we need to apply for a warrant to remove the dog. Unfortunately, Julian was the only qualified inspector on this case and he is on leave for this week. Can I suggest that we move this case to next week for him to follow-up and then make a decision from there? My other problem here is that the images on the case does not paint the picture of a dirty living environment; yes there is a lot of rubble but it appears that it is in one corner of the property and does tell the story of how it affects the dog. The other concern is that a warning was issued for the owner to provide the dog with adequate shelter but yet again the images do not paint the picture of the dog not have adequate shelter.

Please let me know what you think...
