Comments:	Apon arrival at this property, i met with Mr Handricks who granted me access and see where he kept his dogs. I observed 2x German Sheppard inside their shelter, the dogs appeared to be in a fair condition, have access to food and clean water. They both living in a clean condition. When i asked if they are sterilized, the owner indicated that both dogs are not sterilized due to the claim that they are show dogs and he is in position of a breeder's permit from the Federal of SA, i then informed him that a verification will need to be conducted to see if his permit is being recognized by the City of Cape Town .
