Comments:	Received a call from 0716942137- Rossie residing at 2 musica avenue in Macassar, she said shes at work and dont have any documentation with her currently, she wanted to know when she can fetch the dog that was taken this morning and why the dog was taken, i asked for the address and check the case and explained that the dog was seized by the inspector and she has to come to spca in grassy park to lay a claim for the dog and speak to the inspector, she then wanted to know why we take the dogs and i gave her an example that if theres a case and the ispector issues a warning and the owners fil to compl with the warning and the inspector goes back and then still nothing was done to correct the concerns) i then gave an example that if the dog needed vet treatment for a broken leg and the owner fails to take he dog to a vet then the inspector will take further legal action against the owners because now its a case of neglect) Rossie then asked that the inspector call her back regarding the dog- she was also given the address of SPCA.
