

INSPECTOR NOTE

Building:
Street: 58 ALPHA WAY
Suburb: OCEAN VIEW
Postal Code: 7975
Date: 2025-10-17
Time: 14:05
Inspector: TEAH MURPHY

Type: CALL RECORD - RECEIVED
Follow-Up Date: 2025-10-17

Comments: received a call now from LORIMAR- 0848756920 residing at 58 ALPHA WAY, OCEAN VIEW she responded with warning 15151 she advised that her neighbors informed her that I.e was at her property just now and apparently they took her dog, she explained to me that she has been in contact with tears and they collected the dog on either Monday or Tuesday for treatment and the dog was diagnosed with tick bite fever and the dog was then dropped off on Wednesday , she says when the driver arrived and collected the dog in question she explained the situation and stated that she received a warning from SPCA in which he then told her that she must scan and sent the document to tears which she did so that they can forward us the vet report of the findings on the dog, she says that the neighbors just messaged her and she wanted to know whats going on because she was under the impression that Tears was going to give us the information . i have asked her to send through the information of the invoice and meds that she received and i also explained to her that i am just the controller who receives the cruelty cases and dispatches it to the inspector and advised her that we dont receive any information regarding the case once its logged.

I then took her information and stated i would check with my colleagues to see if anyone received an email from Tears with the dogs vet report in which Peace reassured me that there is no email from them and I cannot see anything on the case or on WhatsApp.

Lorimar has also informed us that she has sent an email out to Cape SPCA email address in which Janine from the hospital responded (which means the email was sent to the wrong department, hence we did not receive any information from her)
