FINDINGS

Confinement of animal/s: Free roaming - in property
Adequate space: Yes
Clean living environment: Yes
Water available: Yes
Adequate shelter available: Yes
Animal/s in good condition: Yes

Upon arrival, myself and Inspector Lwazi Ntungele met with Julian De Villiers who granted us access to the property. We observed the adult female and the female puppy, both in fair body condition and free roaming on the property. The dogs both had access to adequate shelter and water available, and the living environment was clean.

We asked the owner why the puppy was chained when we were there previously, and they said that they left for only 5 minutes but ended up being much longer than expected, and they self were worried about the dog. We educated them that they should not do that again, whereby they agreed. Therefore, this case can be closed as the owners complied. NFA
