Adequate shelter available: Yes

Upon arrival, myself and Inspector Lwazi Ntungele of Cape of Good Hope SPCA met with the sister of the owner of the dog, who granted us access to the property.

We observed an adult male X breed dog, fair body condition and but still on a static chain of inadequate length, and the chain was still raw around the neck. The dog had access to adequate shelter but there was no water available for the dog and the living area was full of rubble. The sister explained that they had received the notice we left, and her brother had gotten the collar and the line for the running chain, however he still needs to put it up. I told her that they need to address all the issues that was on that notice, as so far nothing has changed as of yet.

I issued a warning, 21821, to:

- As a last resort place the dog on a running chain within 7 days.
- Clean and hygienically maintain the living environment within 7 days, and clean the rubble away in the animal's living area.
- Provide the animal with sufficient potable water 24 hours a day.
- Please provide a suitable collar for the animal within 7 days.

The warning was consigned by myself and Inspector Lwazi Ntungele. The warning was signed and accepted by the owner's sister on behalf of her brother, Mr Christopher Samuels.
