Comments, if any:

Upon arrival, myself and Inspector Lee Prins from the Cape of Good Hope SPCA met with a man named Colewin Julies, who granted us access to the property. I observed an adult male dog, fair body condition and free roaming on the property. The dog had access to clean potable water, however there was no proper adequate shelter observed. The living area was clean as well. The dog was also observed to be unsterilized, which was confirmed by Colewin. He advised that his stepfather, Adrian, is the owner of the dog as he took the dog in recently when previous tenants at the property left the dog there with them. I asked Colewin what the dog uses for shelter, and he said basically the carport, but I told him that the carport is not adequate as it does not protect against all the elements.

I issued a warning notice, 21830, to:

- 1. Provide the animals with adequate shelter against the elements within 7 days.

The warning was co-signed by Inspector Lee Prins and I and was signed and accepted by Mr. Colewin Julies on behalf of the owner Adrian. I asked Colewin as well if they are interested in sterilization and he said he will speak to the owner about it.
