Comments, if any:

Upon arrival, myself and Inspector Lee Prins from the Cape of Good Hope SPCA met with the owner, Mrs. Isabella Loesa, who granted us access to the property. I observed both dogs in question, both still in fair body condition. The dogs are free roaming on the property however the living area was still quite dirty with trash. The dogs had access to adequate shelter as they have full access to the house and sleep in the house, and they have access to clean potable water in the house as well. The owner said she is still waiting for her son to fully clean the area, but they did clean from it already.

I issued a warning notice, 21842, to:

1. Clean and hygienically maintain the animal's living environment within 6 days.

The warning was co-signed by Inspector Lee Prins and I and was signed and accepted by the owner Mrs. Isabella Loesa. The sterilization of the adult male will be arranged upon follow up.
