Comments, if any:

Upon arrival, myself and Inspector Lee Prins from the Cape of Good Hope SPCA met with the owner, Mrs. Angelique Crowster, who granted us access to the property. I observed the adult male dog, still in fair body condition and free roaming on the property. The dog had access to clean potable water but there was no proper adequate shelter observed for the dog. She said her brother was supposed to bring a kennel but evens if he doesn't, she will then buy one the weekend for the dog. She asked if we would sterilize the animals and I told her yes, once the shelter is sorted.

I issued a warning notice, 21843, to:

1. Provide the animal with adequate shelter against the elements within 6 days.

The warning was co-signed by Inspector Lee Prins and I and was signed and accepted by the owner Mrs. Angelique Crowster.
