Comments, if any:

Upon arrival, myself and Inspector Lee Prins from the Cape of Good Hope SPCA met with the owner, Mrs Sarah Kreur, who granted us access to the property. I observed the adult dog in question, still in fair body condition and free roaming on the property. The living area was clean, and there was clean water available. There was also adequate shelter available now. The owner states she got the shelter from a family member, and they brought it the evening of our last inspection. However, she says the dog does not use it and still prefers to sleep under the carport. I told her that its fine, as long as the dog has the option so if he ever does feel the need to use the shelter, it's there for him. She agreed and said she understands that yes and she's glad he has the shelter now. I asked if she's willing to have the dog sterilized and she agreed. I informed her I will have my office arrange the sterilization.

From the welfare side, this case can be closed. NFA
