Comments:	On the 18th of November 2025, I was at the property to do a follow-up inspection, I did add the report. I have observed 3 dogs, they were kept in a clean living environment, there was water and there was shade provided to the dogs, those dogs were from the sun, I took few pictures to prove that, i didn't see any signs of the dogs being underweight or starved. Then I took the dog that was not sterilized in for sterilization. I did a follow-up with the hospital, I found out that the dog was done yesterday, it will be done today, possible the dog will be going home tomorrow
