Comments:	Good day Mr D, I tried calling earlier, but it seems you may have been out of range or possibly on leave. I would appreciate it if you could please assign someone to follow up on the matter below. We received a concern regarding a python and other animals at 9 Chester Road, Westlake. Our Inspector went to the property but did not observe any welfare concerns, with any of the animals. The owner of the snake refused to provide her name or contact number, of confirm whether she had a permit for the snake. She thinks that her mother reported the snake, although the report we received came from someone else. Would it be possible for you, or someone from CapeNature, to check whether the resident has the required permit for the snake? If not, then you guys will obviously take the appropriate steps in line with your policies. Thank you in advance for your assistance.
