Sorry , but I have to send you an email again on something that is bothering me. I stay in Bothasig and in December last year Chinese people moved in across the road from us. They are doing business from home and they have 2 dogs there for security so that no one can get into the yard. This dogs is barking non- stop every day. The neighbour next door from them took some pictures and send it to me. It does not even look like the dogs have a kennel or fresh water. Not sure if they even get food to eat. She said she has reported it to the SPCA , but apparently there is nothing that you can do about it. Is there really nothing that can be done. It saddens my heart that the dogs must live like this. Attached is the video's that was send to me.
