Subject: RE: COGH SPCA : Dog in hot car

Hi, I also put my fingers in through the small gap at the temp in the car was significantly hotter than the outside temp.

Inside his car was a stack of alcohol which I assume he had just bought from the bottle store at the centre so it looked as if he had been to the bottle store and then on to PnP.

The staff at PnP also witnessed the interaction as I had been to them first to ask if there was any load speaker system to try and find the owner. One staff member also can out with me to check the car.

Regards
Jane Holdcroft
