Please describe the concern you have
There are two dogs, Older white dog (wolf looking) and a small brown puppy (maybe 3months old).

They live outside (regardless of weather conditions), only 1 cup of food is given per dog (on the floor - no bowl), insufficient amount of water (as per attached).

The owners never walk the dogs and are more often than not away for 10-12hrs per day. When the owners are there they dont let dogs inside not attend to them when they bark/moun for attention - they are ignored. It appears that they also never get bathed/brushed.

There is not enough shelter nor shade for either of them.

The attached was taken over a few days of which one night was in the rain.
