Clean living environment: Yes

Adequate shelter available: Yes, but not adequate ***

Animal/s in good condition: Yes

Upon arrival, myself and Inspector Lee Prins from the Cape of Good Hope SPCA met with a woman named Sarah Kreur, who granted us access to the property. Sarah informed us that she is actually the owner of the dog in question. She said Adrian, the previously identified owner, is her son in law but she mostly looks after and provides for the dog. She did also confirm that she knows of our previous visits to the property, and she has been trying to sort out shelter for the dog. She said the dog does have access to the house in the day as the door stands open always, but he prefers to sleep outside under the carport. I informed her that the carport does not afford enough adequate shelter against the elements, that's why we requested additional shelter. She said they really will try again to either build one or get one.

I observed the adult male dog, fair body condition and free roaming on the property. The dog had access to clean potable water, and the living area was clean as well.

I issued a final warning notice, 21849, to:

1. Provide the animals with adequate shelter against the elements within 48 hours.

The warning was co-signed by Inspector Lee Prins and I and was signed and accepted by the owner Mrs Sarah Kreur. I asked Sarah if the dog can be sterilized and she said agreed to it. I told her we will arrange it.
