Comments:	I received a call from Lynda Orrie, who reported that the young woman who provided her with information regarding the complaint heard yesterday mentioned that the men in Ottery claim to have extensive contacts at the SPCA. They allegedly stated that they would find out who reported the matter and that the individual would be dealt with. Lynda added that one of these men is a member of the group known as the "SixBobs," who often make threats in a casual manner. She expressed fear for her safety. Although I reassured her about the confidentiality policy, she remained unconvinced, explaining that some information had already been leaked.
