Comments:	I received a call from the owner. He told me that he was told it is ok to put the dog on a long static chain as he have obstructions on the property. I told him that firstly the chain of the dogbis too heavy and long, there is no way that a dog can be comfortable with that, he must place the dog on a running chain. He started complaining and threatening to come to the SPCA, he is saying the dog is on 10metres circumference and we want him to be on a short running chain. After arguments, he told me that he is going back to the sea and he does not have time for setting up a runner. I then told him that we will come and issue a NTC and place it on his gate. He then said we must not do that, we must send the NTC by email. He then sent his email address by whatsapp. leonniehaus24@gmail.com. Can we please send an email with the warning for a runnjng chain.
