Comments:	I requested control to connect me with the owner. I had spoken with the owner he claims that he was unable to take the dog to vet as his bakkie got broken. He knew nothing about the dog that needs dental. I believe the hospital had provided me with incorrect information, or he shares the same name and surname with someone else. I told him that we are going to apply for a warrant and confiscate the dog and possible lay charges of animal cruelty against him and then he told me that he is going to take the dog early in the morning tomorrow.
