Postal Code:	7945
Date:	2025-12-02
Time:	15:41
Inspector:	TREVOR RODNEY

Type:	COLLECTION - ANIMAL NO LONGER ON PROPERTY / RAN AWAY / NOT CONFINED
Follow-Up Date:	
Comments:	I arrived at the pin location but did not see Penny. I called but there was no response. I then drove to behind the properties bordering the Main Road and saw a woman herding 1 x adult Egyptian goose along the grassy verge bordering Kirstenhof Primary. The adult bird was very skittish and fled when i tried to approach the young goslings. I then managed to catch all 8 goslings with my net. I then kept them outside the the vehicle, in a catbox, to see if the adult would return. The adult returned and i then walked with the goslings in the cat box towards my vehicle. The adult would not allow me to get close to it - and then she would fly away. I then placed the catbox at the boack of my vehicle securely under the canopy and left the lid open so that the adult could hear the goslings. She then came to my vehicle and I moved off slowly, all the time ensruing that the adult could see me and or hear the goslings. It was the time for the primary school to dismiss and the roads around the school was double parked. I could not find parking for my vehicle so i drove slowly in the direction of the release site, which was about 4 km away. The adult would alternate in walking behind the vehicle and then a car would come along and the adult would fly off. It would then come backl to where the goslings were. About 1.5km from the release site, the adult flew away and did not return. I went to the location where i had found the goslings but did not see the adult. I went back that same evening with the goslings, but did not see the adult goose. I returned at various times on the Friday, Saturday and Sunday but did not see the adultt. Goslings were admitted on admission numbers A73627, A73628, A73629, A73630, A73631, A73632, A73633, and A73634
