Inspector:	JEFFREY MFINI

Type:	CALL RECORD - MADE
Follow-Up Date:	2025-12-06
Comments:	At approximately 09h39, I have called the responded on her given cellphone m, she wanted to know the nature of the complaint, after I have told her, she wanted to know when I was at the property what did I see. I told hwr that, I hahe observed the dogs however, we still need to do a proper inspection on the dogs, I also told her that, we do have a picture of the dirty living environment that was sent by the complainant. She wanted to know how did I get an access into the complex, I topd her that, the member of the public let me into the complex. Then the owner told me that, she will be only available on Saturday, the rest of the days she worked. Although we do not have a strong case, I think we need to go to the property in order to get the details of the dogs.
