Subject: Grummel - little puppy for check up in homeless camp please

Good day, I hope you are well.

I would like to request a formal investigation for a wellness check and a sterilization for a little puppy in a homeless camp please. This camp is in Milnerton, on the Koeberg Road along the side of the road (it's often referred to as the fire station camp because it's close to the fire station parking - it is on your left hand side when you are driving towards Makro).

This little puppy has recently replaced a dog that was uplifted by African Tails and not returned for animal welfare concerns.

The little puppy belongs to a man called Ismael and her name is Grummel. She is very young and unsterilized, and I worry that she will be used for breeding based on past records with Ismael.

Please please may I ask that the SPCA go check on her (his home is the furthest shack to the left when you are facing the entire settlement) and the puppy is often hidden in blankets. She is dark black and light brown. She needs to be sterilized please before she goes on heat.

There is also a male dog there called BUDDHA and he is registered with AACL, he is unsterilized and needs to be sterilised. He belongs to Shiobhan and she is interested in steri but fears her dog won't be returned if he gets taken in for steri is all.

Thank you so so much and please feel free to contact me.

Kind regards
